Laura is a 15-year-old girl from Marratxi Spain, a small village near Mallorca. Laura lives with her mother, father and older sister. She maintains a very close relationship with all her family members. Her father is very supportive and always supports her and offers her good advice. Laura loves spending time with her mom and sister. They laugh and share inside jokes with one another. Family time is very important to all of them. They often share vacations with friends and enjoy going to the cinema. Laura can be shy at first, but as she grows in her comfort, she loves to make people laugh. She is great with younger children and has a lot of patience with them. Her friend's siblings love her very much. Laura enjoys singing with her sister and they often put together dance choreographies.

Her teachers describe Laura as responsible, respectful and always supportive of her classmates. When she was 11 years old, Laura held a position of "mediator" in her classroom. She helped her classmates to resolve conflicts. Since then, she often takes on this role with classmates and friends. Laura is a very curious person and eager to learn new things. She is very open minded and flexible.

Laura had dreamed about studying in the US since she was little. She looks forward to sharing her culture with her new host family and wants to learn about the culture in the US. Laura wants to improve on her English speaking skills and learn how to live more independently. She knows that studying abroad will help her achieve these goals and she can't wait to meet her new host family!
