Simone is a 16-year-old boy from Caltanissetta, Sicily. He loves spending time with friends outside and playing sports like soccer and tennis. Sports are a big part of his life. He enjoys being out with his friends driving microcars, riding scooters and going to the disco. Simone lives with his mother and father. Sundays are reserved for lunch or dinner with his parents. He has a very close relationship with both his parents and they spend a lot of time together. His parents own a pub and they spend a lot of time there. Mom can be very protective, but she also gives Simone the freedom to experience new things.

His teachers describe Simone as responsible, cooperative and very helpful to his peers. His motto is "never leave anyone behind". Simone likes working in groups. He does well in school, has a passion for learning and is always asking questions to learn more about a subject. They feel Simone will be very successful in an exchange program because of this.

Simone is excited about the opportunity to be an exchange student. It has always been a dream of his. He enjoys experiencing different cultures and has always been fascinated by them. Simone expects to establish a close relationship with his new host family and looks forward to making new friends!
